REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claim 1 is indicated as being allowable over the prior art of record because the prior art of record does not teach the claimed subject matter including reactive sputter deposition of a layer including silicon thereon to allow for the formation of masking layers on the layer sputtered on the silicone elastomer by means of which the structure is photolithographically microfabricated.

Claims 2-15 are indicated as being allowable over the prior art of record because the prior art of record does not teach forming silicon dioxide, silicon nitride or silicon on an elastomeric material for decreasing the surface tension of the elastomeric material and photolithographically processing the elastomeric material with the decreased surface tension.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
